

AIRR Method

Awareness – my limiting thoughts about this

Example: I'm not good with money

Interrupt – hit the pause button, interrupt the thought

"Up until now..." OR "I used to..." OR "A part of me..."

Release – let it go, release the old, negative way of thinking

Replace – new more empowering thought

Example: I used to think I wasn't good with money, NOW I'm masterful at managing my money and I'm getting better everyday.

My Reframe –

Action – reinforce the reframe, schedule it and do it

What action can I take...
